ADVICE LETTER 2169-E/1947-G
(U902-M)

PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

Public Utilities Commission of the State of California

Subject: DISTRIBUTION PBR SAFETY PERFORMANCE FOR 2009

San Diego Gas & Electric (SDG&E) hereby submits for approval with the California Public Utilities Commission (Commission) its 2009 PBR safety performance filing. This filing is made in compliance with Decision No. (D.) 08-07-046, and Preliminary Statement Part IV Electric Distribution & Gas Performance Based Ratemaking (PBR) Mechanism, in SDG&E's General Rate Case (GRC) Application No. (A.) 06-12-009.

BACKGROUND

On July 31, 2008, the Commission issued D.08-07-046 adopting, among other things, the Settlement Agreements regarding SDG&E's revenue requirements for its Test Year 2008 GRC and post-test year ratemaking and incentive proposals. The GRC period covers a minimum of four years beginning January 1, 2008.

Pursuant to the adopted 2008 GRC decision (D.08-07-046) and its adopted tariffs¹, SDG&E is subject to a performance incentive for employee safety².

DISCUSSION

The purpose of this filing is to report the reward or penalty for the Employee Safety Performance Indicator adopted in D.08-07-046. The following summarizes the final 2009 year-end Safety Performance results:

¹ SDG&E Advice Letter 2015-E was approved by letter on October 9, 2008 and made effective January 1, 2008.

² Pursuant to the GRC decision, on August 29, 2008 SDG&E sent a letter to the Executive Director of the Commission accepting only the performance incentive for employee safety. SDG&E filed Advice Letter 2022-E to revise its PBR Preliminary Statement accordingly, which was approved on November 3, 2008 and made effective September 8, 2008.

Employee Safety Performance Indicator

Rewards and penalties for employee safety are determined based on the Federal Occupational Safety and Health Administration (OSHA) frequency standard, measuring the regulated utility's OSHA recordable lost time and non-lost time injuries and illnesses against total utility working hours. For the year ending December 31, 2009, SDG&E experienced 153 lost time and non-lost time incidents. The 153 total OSHA recordable incidents result in a frequency of 3.20.

Employee Safety	2009
Total OSHA Recordable Cases	153
x 100 employees at 2,000 hours / year	200,000
= Total OSHA Recordable Hours	30,600,000
/ Total utility year-to-date work hours	9,561,951
= Total OSHA Frequency	3.20

For 2009, the reward and penalty for the Employee Safety Performance Indicator are based on the following parameters:

Employee Safety	2009
Benchmark	4.92
Deadband	4.34 - 5.50
Penalty Liveband	5.517.51
Reward Liveband	2.33 - 4.33
Incentive Rate	12,500/.01
Maximum Reward / Penalty	\$2,500,000

For 2009, SDG&E's performance for its Employee Safety Performance Indicator resulted in a \$1,425,000 reward calculated as follows:

Employee Safety	2009
Benchmark	4.92
Results Achieved	3.20
Results better than Benchmark	1.72
Less Deadband	0.58
Units above Benchmark	1.14
Conversion Factor	0.01
Units of Change for Reward	114
Incentive per Unit	12,500
Reward	\$1,425,000

Upon Commission approval, the rewards or penalties will be recorded to electric and gas Rewards and Penalties Balancing Accounts (RPBA) for amortization in rates.

During 2009, SDG&E provided continued focus in the following areas contributing to its Employee Safety success: (1) the Executive Safety Council provided leadership and critical directional decision-making for strategic safety initiatives and continued with its employee dialogue sessions to gain deeper understanding of front-line safety issues and concerns; (2) statistical tracking of injuries and vehicle incident data to provide insight into preventive solutions; (3) performance of individual job observations to help define and reinforce safe behaviors; (4) employee and management involvement opportunities including safety committees and incident evaluation teams; (5) wellness through health fairs, health screenings, and stretching programs; and (6) safety excellence awards designed to recognize and motivate frontline employees who demonstrate exceptional safety leadership.

Pursuant to the 2008 GRC, SDG&E is required to perform an annual internal audit to ensure the incentive mechanism for employee safety is implemented, operated, and calculated correctly and fairly. The internal audit report will disclose all audit findings and recommend any corrective actions. The employee safety award presented herein has been verified as a result of the audit, the details of which are provided in a separate letter to the Commission in accordance with the reporting requirements adopted in the 2008 GRC and incorporated in SDG&E's Preliminary Statement Part IV PBR³. The letter to the Commission will provide details of the internal audit and related findings.

This filing will not increase any rate or charge, cause the withdrawal of service, or conflict with any rate schedule or rule.

EFFECTIVE DATE

SDG&E believes this filing is subject to Energy Division disposition and should be classified as Tier 2 (effective after staff approval) pursuant to GO 96-B. SDG&E respectfully requests that this filing become effective on May 30, 2010, 30 days from the date filed.

PROTEST

Anyone may protest this Advice Letter to the California Public Utilities Commission. The protest must state the grounds upon which it is based, including such items as financial and service impact, and should be submitted expeditiously. The protest must be made in writing and must be received by May 20, 2010 which is 20 days of the date this Advice Letter was filed with the Commission. There is no restriction on who may file a protest. The address for mailing or delivering a protest to the Commission is:
