ADVICE LETTER 2059-E / 1834-G
(U902-M)

PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA

**SUBJECT: EMPLOYMENT OF DEFICIT BILLING PRACTICE PURSUANT TO SDG&E's
ELECTRIC AND GAS RULE 15**

PURPOSE

This filing provides notification of San Diego Gas & Electric Company's intent to employ deficit billing for unearned commercial extension allowances, as stated and approved in Rule 15 of SDG&E's electric and gas tariffs.

DISCUSSION

SDG&E's electric and gas Rule 15 allows the granting of allowances in advance of construction, provided that building construction will proceed promptly and that building permits, home purchase contracts, or lease agreements have been issued at the time that final costs and contract package are being prepared. Customer Advances for Construction (CAC) projects are typically associated with system augmentations that support new system sales, such as service extensions for a new residential or non-residential development. For residential projects applicants often promise that a certain number of new services can be established as a result of the project. For non-residential projects, allowances are based on the load estimates provided by the applicant. In the event that the building's occupant has not been determined, allowances are based on customer types and estimated by the utility. CAC projects are monitored by the utility and the advances refunded as services become active. The actual costs of these projects are included in rate base less net proceeds from customers.

The 'Contract Compliance' section of electric and gas Rule 15 states that if, after one year following the date the utility is first ready to serve non-residential loads for which allowances were granted, the applicant fails to take service or fails to use the service contracted for, the applicant shall pay to the utility an additional contribution or advance.¹ This additional charge is based on the allowances for the revenue actually generated.

To date, SDG&E has never deficit billed customers to enforce this portion of Rule 15. Previously, the amounts subject to deficit billing were minimal and therefore not billed to customers. However, due to the recent economic downturn and an anticipated increase in

¹ SDG&E Electric Rule 15.D.7.a and Gas Rule 15.D.8.a

applicants failing to take service within the required timeframe, SDG&E will be implementing deficit billing for unearned commercial extension allowances beginning in April 2009. This authority exists in SDG&E's current and effective Rule 15.

EFFECTIVE DATE

SDG&E believes this filing is subject to Energy Division disposition and should be classified as Tier 2 (effective after staff approval) pursuant to GO 96-B. Therefore SDG&E respectfully requests that this filing be approved on February 26, 2009, 30 days from the date filed.
