Resolution No. E-3998

## APPLICATION AND CONTRACT FOR UNMETERED SERVICE FOR SCHEDULE UM

CUSTOMER ACCOUNT NO.

### TO SAN DIEGO GAS & ELECTRIC COMPANY (SDG&E):

The undersigned Applicant hereby requests SDG&E to supply electric service and to deliver electric energy to and for the equipment hereinafter described in accordance with the applicable rates and rules of SDG&E including the tariff set forth in Schedule UM.

#### Applicant hereby agrees to the following:

1. SDG&E has made available for inspection its applicable rates and rules. Applicant agrees to comply therewith, and with any changes or modifications thereof which may be authorized from time to time by the Public Utilities Commission of the State of California (Commission).
2. Applicant's attention has been directed to the rate schedules applicable to the service herein described, and Applicant has elected to take and pay for unmetered service under Schedule UM for each unmetered service based on fixed wattage categories of 0-50, 51-100, 101-150, 151-200, 201-250, 251-300, 301-350, 351-400, 401-450, 451-500, 501-900, 901-1350, 1351-1800, 1801-2250, and 2251-2700W.
3. If the service is on private property, Applicant hereby grants to SDG&E a right-of-way for any electric lines that may be necessary to build in, on, under, or over Applicants premises for the purposes of making delivery hereunder.
4. Applicant shall pay for and install per SDG&E's construction standards and subject to SDG&E's inspection a load control device (fused splice box) acceptable to SDG&E that will ensure the Applicant's service will not exceed the fixed usage category elected by the Applicant.
5. Applicant understands: a) the fused splice box will act as the point of service/connection between the customer and SDG&E and will be installed per SDG&E's and the local authority having jurisdiction's (AHJ) requirements; b) the fused splice box will be locked with a SDG&E lock and made accessible only by SDG&E; c) the Applicant shall provide all fuses. All fuses shall meet the approval of the AHJ and SDG&E, and shall be installed by SDG&E; d) that if the service exceeds the maximum tier or the Commission closes this Schedule, the customer must remove their equipment, including the fused splice box, and install a metered service under the applicable tariff per SDG&E's electrical service requirements and the applicable AHJ requirements; e) that once the maximum kWh of a tier has been exceeded, SDG&E will move the Applicant to the next available tier upon the AHJ's approval of all electrical changes. The Applicant shall provide the appropriate size fuses for that tier, and SDG&E will bill accordingly; f) service shall be provided per the provisions of Rule 15 and/or 16 g) that SDG&E will not approve an application for service under this rate schedule until all the required documentation has been submitted to SDG&E, and h) installation of service and customer apparatus must abide by General Order 95, Cal-OSHA 98, and the California Electric Code.
6. Auditing may be conducted at SDG&E's sole discretion. Auditing may commence following the first anniversary of the Effective Date of this contract (defined below). The cost of the audit shall be at the sole expense of the Applicant. An auditing charge between \$68-\$104 per person-hour shall apply. Applicant will provide a complete and accurate inventory and other information as required below. Applicant shall provide access to the facilities and provide assistance to SDG&E and its auditor to accomplish the audit, including, without limitation, identifying, locating and accessing the facilities. SDG&E shall have the right to collect all costs associated with any additional work, including but not limited to, field verification or auditing of devices.
7. This contract shall become effective on the date it is approved and accepted by SDG&E (the "Effective Date") and continue until the earlier of the following occurrences: (1) either party terminates by sending the other party written notice at least thirty (30) days in advance of the effective date of termination, (2) the Commission terminates this contract; or 3) by SDG&E upon written notice of Applicant's default of any of the stated terms, agreements, covenants, conditions and provisions of this contract. Applicant expressly acknowledges that SDG&E shall not be liable for any costs, expenses, damages, claims or the like caused by or arising out of SDG&E's termination of this contract, including but not limited to any rearrangement, relocation, removal or disconnection expenses. SDG&E may continue to provide service to Applicant provided that a) a subsequent executed superseding agreement governing the terms of unmetered service has gone into effect prior to the termination of this contract; or b) a meter has been installed and the service has been transferred to metered status.
8. Applicant shall indemnify and hold harmless SDG&E, its officers, agents and employees, against all loss, damage, expense and liability resulting from injury to or death of any person, including but not limited to employees of SDG&E, Applicant or any third party, or from loss, destruction or damage to property, including but not limited to property of SDG&E, Applicant, or any third party, arising out of or in any way connected with the performance of this contract, however caused, except to the extent caused by the active negligence or willful misconduct of SDG&E, its officers, agents and employees. Applicant will, on SDG&E's request, defend, any suit asserting a claim covered by this indemnity. Applicant will pay all costs that may be incurred by SDG&E in enforcing this indemnity, including reasonable attorneys' fees.
9. This contract shall at all times be subject to such changes or modifications by the Commission as said Commission may, from time to time, direct in the exercise of its jurisdiction.
