**IV. BALANCING ACCOUNTS**  
**GAS ENERGY EFFICIENCY BALANCING ACCOUNT (GEEBA)**

1. Purpose

The purpose of the Gas Energy Efficiency Balancing Account (GEEBA) is to balance GEE program expenses against revenues from January 1, 1998 forward. The GEEBA will also facilitate the transference of gas funds to a new administrator(s), and certain other adjustments to funding levels as authorized by Commission Decision(s).

Commission Resolution G-3303, dated December 21, 2000, adopted gas PPP surcharge rates effective January 1, 2001 as directed by Assembly Bill (AB) 1002. Resolution G-3303 also 1) exempts some customers from the PPP surcharge who were not exempt to charges in rates prior to January 1, 2001 and 2) requires utility to make quarterly payments to the California Board of Equalization (BOE).

Commission D.04-08-010 authorized utilities to modify their regulatory accounts to facilitate the unbundling of PPP costs from their rates. D.04-08-010 also notes that while the surcharge collections are in the possession of the State, the applicable interest that applies is the actual amount of interest that accrued while the remittances were on deposit in the State's Gas Consumption Surcharge Fund (Fund).

For energy efficiency and low income energy efficiency program cycles beginning January 1, 2006, program costs and related surcharge funds will be recorded to the Post-2005 Gas Energy Efficiency Balancing Account and the Post-2005 Gas Low Income Energy Efficiency Balancing Account respectively.

2. Applicability

The GEEBA shall separately apply to non-low-income energy efficiency and low-income energy efficiency-related activities and funding from January 1, 1998 forward as approved by the Commission.

3. Accounting Treatment

The GEEBA shall have Pre-2001 and Post-2000 sub-accounts to record expenses and revenues for the applicable timeframes.

The GEEBA shall be recorded at the end of each month as follows:

- a. A debit entry equal to all expenses incurred for energy efficiency programs and activities;
- b. A debit entry to transfer funds as directed by the Commission to a new administrator(s);

4. Disposition

Pursuant to Commission D.04-08-010, the Utility shall file by October 31 of each year an advice letter requesting to establish the gas PPP rate effective January 1 of the following year consisting of the net amortization component of gas PPP account balances consistent with the Commission's prevailing policy on PPP accounting methods and the Commission's currently authorized program budget revenue requirements for the PPP. Program spending is limited and over-expenditures may not be recovered from ratepayers. Shareholders absorb the balance in the event that actual program expenses exceed authorized levels.
