- 9. Customer Charge. At the utility's discretion, multiple meters located at a customer's premises, as defined in Rule 1, may be aggregated and billed as one meter for the purpose of applying the customer charge. The Firm Service Use-or-Pay Charges shall be forgiven when the customer's reduced gas consumption is due to firm curtailments or firm service interruptions imposed by the utility.

NATURAL GAS INTRASTATE TRANSPORTATION SERVICE  
FOR DISTRIBUTION LEVEL NONCORE CUSTOMERS

SPECIAL CONDITIONS (Continued)

- 14. Limitation of Availability of Firm Service. In the event that all of the load in a customer's request for firm service, submitted in response to an open season that closes after January 1, 2003, cannot be met by the utility, the utility shall allocate available capacity pro rata: first to existing customers based on their most recent 12-month demand; and second equally across all incremental load of existing customers and new customers. The utility will notify the customer when there is a change in the amount of their load that can be served at the Firm Level of Service. T
- 15. Firm Level of Service. The utility shall plan its system to provide transportation adequate to avoid curtailments of firm service more frequently than one episode in 10 years, based on historical weather conditions. Should there be any physical malfunction of equipment or extreme weather conditions the customer should anticipate the potential for additional curtailments. T
- 16. Firm Service Interruption Credit. In the event of a curtailment, a \$0.25 per therm credit may be applied to a customer's bill for applicable qualifying service interruptions as described in Rule 14. T
- 17. Pre-paid Deposit for Construction. A potential customer may obtain a Pre-paid Deposit for Construction letter from the utility based on the following: (1) the customer provides the utility with a written indication of interest in firm service and the specific levels per month, (2) the utility determines that a system expansion is needed to serve the potential customer's firm service load, and (3) the customer pre-pays the utility an amount equal to 20% of the cost of the utility's estimated pre-construction activities. Any pre-paid amounts shall be refunded to the customer if the customer commences service within 90 days of the date indicated in their written indication of interest letter and with a request for firm service equal to the levels originally requested. The utility may seek Commission approval to make any commitment to expand its system based on requests made in conformance with this Special Condition. T

IMPLEMENTATION OF D.09-11-006
